Residence Visa — Valid UAE Driving License — Available to Join Immediately

Professional Summary

Computer Engineering graduate and Full Stack Developer with hands-on experience building scalable web applications, CRM systems, dashboards, and AI-powered products. Proficient in **React.js**, **Next.js**, **Node.js**, **Laravel**, **MySQL**, **REST API development**, and **database optimization**, with additional exposure to **AI/NLP integration**. Proven track record of improving application performance, reducing load times, and streamlining backend systems in Agile teams. Currently based in the UAE and available to join immediately.

Skills

Programming Languages: JavaScript, PHP, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Laravel, RESTful API Development, Microservices

Databases: MySQL, PostgreSQL, MongoDB, MSSQL, Oracle, Query & Database Optimization

AI/ML: Applied NLP, AI-Assisted Application Development, Python Data Processing

Tools & DevOps: Git, Docker, Postman, Vercel, Hostinger, CI/CD Basics

Methodologies: Agile/Scrum, Full Stack Development, Performance Optimization, System Design, Debugging

Platforms: WordPress, SharePoint, CMS Integration

Experience

Krita Tech

Aug 2025 – Apr 2026

Junior Software Engineer

Navi Mumbai, India

- Built and maintained full-stack web applications using **React.js**, **Angular.js**, **Next.js**, and **Node.js**, directly supporting core business operations for end users.
- Designed and shipped **RESTful APIs** and backend services that streamlined communication between frontend and backend systems.
- Implemented Redux state management and frontend performance optimizations, cutting page load times by **30%**.
- Delivered production-ready features on schedule by collaborating in Agile Scrum sprints covering development, testing, and deployment.

Centuria Aviation Academy

Dec 2024 – Aug 2025

Software Engineer Trainee

Navi Mumbai, India

- Built a CRM platform managing **2,000+ student and staff records**, automating workflows and reporting to reduce manual administrative work.
- Designed and integrated **RESTful APIs** enabling secure, real-time data exchange across internal systems.
- Built interactive dashboards and automated reports with Python and Excel, giving stakeholders real-time operational visibility.
- Optimized MySQL queries and backend processes, improving reporting speed by **35%**.

Internships

Jan 2024 – Nov 2024

Full Stack Developer / App Developer

Remote / Navi Mumbai

- Delivered full-stack web and mobile applications for clients, including a matrimonial platform, cab booking system, and service management application.
- Built backend services and optimized MySQL databases to improve application scalability and response times.
- Deployed production applications to cloud hosting platforms and published Android applications on the Google Play Store.

Projects

ManoSahyog – AI Mental Health Assistance Platform | Python, NLP, React.js, Node.js

2026

- Built an AI-powered mental health assistance application using **NLP** to understand user input and provide supportive, context-aware responses.
- Designed conversational flows and backend logic to guide users toward relevant coping resources and support in real time.
- Integrated a full-stack architecture connecting the NLP engine with a responsive frontend for a seamless user experience.

CRM Dashboard System | React.js, Node.js, MySQL

2025

- Built a CRM dashboard supporting user management, analytics, reporting, and workflow automation.
- Integrated REST APIs and optimized MySQL queries, improving data retrieval and reporting efficiency.

E-Commerce Platform | PHP, MySQL, HTML, CSS, JavaScript

2024

- Built a full-stack e-commerce platform featuring authentication, product management, order processing, and payment workflows.
- Optimized backend APIs and database queries, improving application load speed by **40%**.

Education

Pillai College of Engineering

Aug 2022 – Apr 2026

B.Tech in Computer Engineering

Navi Mumbai, India
